

# Shareable Rebuttal Card Generator

Flat-earth claims often travel as short social posts. This tool answers in the same compact format without abandoning the site's standard: name the claim, state the flaw, and point back to a test.

<https://wiki.flatearthabsurdity.com/tools/rebuttal-card-generator/>

## How to Use It

---

1. Pick the recurring claim pattern.
2. Customize the wording if needed.
3. Copy the reply text or screenshot the card.
4. Link to the relevant claim-lab page for the deeper explanation.

## Tone Standard

---

Be sharp about the claim, not cruel to the person. The strongest response is usually: "What does your model predict?"
